15(!) Professional Premium Presets (Pro) for Desktop Lightroom and Photoshop as well as Lightroom Mobile (.xmp or .dng files) The 15 presets are great for the lockdown-like home environment that looks great on indoor clear, clean, interior landscape, and portrait photography. This is the perfect solution for time period as well as you Instagram feed. Each preset was designed by an experienced photographer and will look stunning with a range of photos.

The professional presets are created to streamline workflow to process and edit images with a contemporary and contemporary appearance. Warm tones, saturated/faded matte, grainy smooth skin, bright colors, cool tones. This pack is all about it. This set is a "must-have" for both photographers as well as bloggers, designers, and photographers. The collection has been tested on a variety of photographs and is very effective. The adjustments are extremely well-thought-out and simple, and they work well with any version of Lightroom 3. x up to CC The effect is identical. You can make use of these presets on any image. They can also be described as multi-purpose.

Important Features Professional and unique results that can be achieved in a single click for photographers bloggers, designers, designers and Instagrammers, both professional and amateur. Quality is more important than quantity. We will not offer our team 100 presets in one, with only minor differences between them, except for bundles. We value our customers and are doing our best to offer the highest quality products. The presets won't alter the white balance (White Balance) of your photo. they are able to work using exposure, color contrast, whites colors, blacks, HSL, and more. So if your White Balance appears to be "OK", they do nearly the same thing as for the preview image which is incredibly simple to modify both MAC & PC and MOBILE designed to work in any resolution. No calibration profiles for cameras are required. adjustments for photographs that are under- or overexposed The supported formats are .jpg, .tiff and RAW (.arw, .srf, .sr2, .crw, .cr2, .dng, .3fr, .mef, .nef, .nrw, .ptx, .pef, .raf, .rw1, .rw2, .srw and more.)
