- 1.
- 2.

The **Blender Market – Conform Object** add-on from Blender Market simplifies the process of projecting objects onto surfaces in 3D modeling. It offers safe and non-destructive solutions, including a convenient right-click menu for one-click actions and options like Grid Mode and Shrinkwrap Mode.

How do plugins simplify the process of displaying objects on surfaces in 3D modeling?

You can use "Blender Market – Conform Object" to design your project.

The add-on progressively improves effects and ensures the underlying mesh remains undamaged. It also facilitates the transfer of normals for blending shading, provides apply and undo options for modifiers, enables combining multiple objects simultaneously, and includes a preset system for saving preferred settings.
