

## AESweets – Fold v1.1.1 for After Effects (Win, Mac)

2025-02-10 17:12:44    [label](#)    [我要反馈](#)    [下载页面](#)

The twist is a plugin for After Effects. You can use it in order to make a 2D"folded paper" result by shifting the supplied "manages". Additionally, you can command the Sort of the shadow, its own Color, the management of these folds, and the number of sections.

Fold User Interface components

### 1) Number of sections

the Number of built segments.

### 2) Segment Width Random Seed

Randomize the dimensions of these sections (select 0 for both Sized sections ).

### 3) Control Mode

Dual Handles - utilize two handles (or percentage sliders) to restrain the Starting place and the end position of this folded picture.

Symmetric - Utilize one handle (or percentage slider). The fold is more symmetric, comparative Into the middle of the coating.

### 4) First Manage Offset

The offset of the initial management across the transverse fold Management in Control Mode Dual Handles.

### 5) Secondly Manage Offset

The counter of this next manage across the transverse fold Management in Control Mode Dual Handles.

### 6) Fold Direction

The management of these fold lines.

### 7) Shadow Color Factor

The proportion of shadowing when completely folded.

### 8) Flip Shadow

Switch involving even/odd shadowed sections.

### 9) Max Depth

A fold thickness multiplier, Allowing the growth or Reduction of this perspective distortion.

### 10) Smooth

Enable/disable Flexible sampling. Default is allowed. (because V. 1.0.3)
