

Mockup Creator by Simon Henke – Paper Panel

2025-02-10 16:39:17 [label](#) [我要反馈](#) [下载页面](#)

Paper Panel is a Photoshop extension that allows you to create mood boards, mockups as well as other kinds of scenes. The 10 tabs that are the main ones are perfectly aligned to each other, making the creation of images using this program a thrilling and simple task. It comes with a range of assets such as objects, seamless patterns, shadows and foils, and many others. These can be accessed through the panel interface, and are added to your document upon click and helpful scripts such as automatically adjusting the bounds of images make it easier to work.
