Funeral Memory Slideshow - PR Project VH-43576329: It is difficult to let go of someone you love dearly. While accepting the news announcements of death can be challenging, let everyone in your loved one's life know what transpired. Social media is the ideal platform to announce announcements about the death of a loved one because it brings all of your loved ones to one location. No one wants to announce a funeral for someone they care about, but it's an obligation after someone we cherish dies.

You can post your video on Instagram, Facebook, YouTube, or any other social network.
