Aescripts Comp Replicator: CSV Driven Batch Comps v1.0:

Comp Replicator: Revolutionize Your Video Production Workflow

Comp Replicator is an innovative tool designed to streamline the process of generating multiple versions of graphics or animations from a single template composition, tailored with different content from a spreadsheet.

This powerful script for Adobe After Effects allows for effortless duplication and customization of compositions using .csv, .tsv, and .txt files.

It offers seamless text replacement, media swapping, and deep targeting of nested layers, ensuring a smooth and fast workflow for both beginners and professionals.

The user-friendly interface features intelligent autofill, a minimal layout, and tagged layers to enhance efficiency.

For rendering, Comp Replicator provides flexible options, including adding to the render queue or sending compositions to Media Encoder, with quick settings for personalized preferences.

Pre-configure your settings for one-click operation and transform your video production with ease.
