### Requirements

- A positive attitude as well as an extremely basic understanding of technology

The New World of NFT's and Digital Art is revolutionizing the world of Artists. The NFT's empower the artist back to the artist, not to the middleman. If you're an artist you should not leave out this revolution in art.

Just like Social Media gave people who were going to become lawyers a chance to create their yoga brand, or a "would-be-accountant" to follow their passion for Photography, NFTs are giving the next generation of artists the ability to pursue art full time.
