

Blender Market – Stage Lighting Kit

2025-02-10 16:48:17 label 我要反馈 下载页面

Blender Market – Stage Lighting Kit: Introducing the Stage Kit, a revolutionary tool for stage designers to effortlessly create and control stage lighting with just one curve. This high-performance, lightweight solution allows you to produce stunning renderings and beam animate effects with ease.

Experience the power and versatility of the Stage Kit, transforming your stage designs into captivating visual experiences with minimal effort.

- The Stage Kit includes a range of parametric equipment such as BSWF four-in-one lighting (Beam/Spot/Wash/Face), LED par lights, Laser Systems, Strobes, Pixel-Line lights, Blinder lights, Truss stands, Layher stands, and LEDLines.
- Designed specifically for stage designers, the kit provides convenient options for hanging lights, controlling lighting, and creating dynamic lighting poses and animation effects.
- Utilizing Blender’s real-time rendering engine Eevee, the Stage Kit enables efficient and rapid debugging and rendering of stage designs.
- Even designers with basic 3D skills can easily and quickly produce impressive stage art effects, making it an invaluable tool for skill enhancement and creativity.
