### MODULAR STRUCTURE

This really is among the key attributes I had been Focusing on with this template. It's 100 percent modular. You can customize, personalize, Combine, replicate, expand or shorten all parts of the template for your requirements.

### SIMPLE TO USE YET POWERFULL CONTROLS

All pieces are created with the greatest Usability feasible for designers, without sacrificing some of the template capacities. All Crucial comps include"Controls" coating from which you can make adjustments to many layers simultaneously. You Won't need to open every placeholder each Moment You wish to modify something.

### DOCUMENTATION + HELP MARKERS + VIDEO TUTORIAL

From the job, You Will Discover lots of Markers that have help text regarding the current layer or comp. Hover your mouse A mark or double-click it to observe the text. You Can Begin your job immediately. Main customization measures for crucial comps are also replicated in Job documentation. Video tutorials Deliver comprehensive Assistance for job Direction, length varies, and placeholder duplication.

### TEMPLATE ORGANIZATION

All of the comps are color-coded and named consequently It is simpler to navigate between these. A number of the Critical comps contain Shortcuts such as [P] for Viewer. With this shortcut, then you can quickly make Out for what it is you're searching for rather than battle in comparable charge names.

### STRAIGHT TO THE POINT DESIGN

Information is easily readable, seems eye Catchy and pleasant as a result of minimalistic and rigorous design choices.

### STATISTICS & INFOGRAPHICS

Entirely pushed by sayings, you do not Have to keyframe some of those parameters, simply type in your worth and utilize "Controls" layers to personalize chart visual preferences. All cartoons are done automatically. All data can be reproduced (with no pre-comps) to make New custom-made stats. You can replicate pubs in a chart, should you need more than just 12 (expressions ought to be marginally updated then ), or just delete unused ones. Pie graph automatically adjusts All of Your worth and colors on entering, Giving liberty with a lot of controls powered by expressions.

**FLEXIBLE MAPS**

Every map includes"Edit" comp at which you Can easily emphasize states only in several clicks. "Map Components" is your location Where you're able to nurture 12 animated indications and 4 mark, callouts, circles, Textboxes. You can also fall on Your icon or emblem and It's Going to be revived automatically.
