#### Feel the Power

Are you looking for a super-fast solution to Blender to create the next landscape? Take a look. This tool is perfect that is ideal for Environment Artists, Game Artists, Matte Painters, Concept Artists, and Illustrators. "Terrain Mixer gives you the capability and speed to make various types of terrain that you can use for the next work. You'll be amazed when you begin moving materials sliders right and left.

#### QADSPINNER "GAEA" FOR AN INSPIRATION

We're hugely impressed by Gaea's terrain generator. It's a tool for professionals utilized by thousands of top artists across the world. Because there isn't a Gaea to Blender bridge in the market, and because tools such as the Quixel Mixer or Substance Painter (or Designer) are merely adding unnecessary stress to the process so we have decided to develop a "Cycles" material configuration that will allow us to mix heightmaps as well as diffuse maps in a quick and simple manner.

#### High-Quality MAPS

We'll be adding additional maps than 8K (16K in the near future). You can also download any maps of your choice.
