**Scandinavian – Lightroom Presets:** Scandinavian Blue Lightroom Preset collection includes 23 carefully crafted Lightroom presets, inspired by the blue tones and bright light of the Nordic nations. The Toning and colors of those presets are normally quite cool and light to bring a Calm texture, although some presets also superbly emphasize warmth and color.

Greatest for Travel, lifestyle, and food photographs but for interior and flat-lay Photography. It's not suggested for portrait photography. I urge Shooting natural lighting in overcast weather during the daytime and Evening gold hours. Moreover, the presets function best on photographs which are slightly underexposed.
