Aescripts AI Relight v1.1.0 (Win):

AI Relight allows users to seamlessly add virtual lights to any footage, simulating a 3D model's lighting environment instantly. With advanced AI, it understands the 3D spatial properties of footage, enabling realistic light manipulation along the X, Y, and Z axes.

Users can enhance ambiance and create dynamic visuals by controlling light bounce and adjusting individual light positions and colors, even with animation. This tool opens up creative possibilities, offering precise lighting control that boosts the visual impact of any shot.
