NOTES:

1. All my presets have been tested on a number of pictures and they're quite versatile. As a photographer & editor myself using over 15 years of experience I utilize these tools to rate Up the workflow and provide my pictures a cohesive style for the Blog & Instagram.
2. Ordinarily, our presets Are straightforward but presets work differently on each picture (because of white balance/exposure) you need to correct the white balance & exposure. If You want any help fixing contact and I'm happy to correct them to match Your own images.
