Presets work best for landscape or nature photos that have a cloudy sky. They will work with other types of photography, such as travel, urban, and lifestyle.

The product includes 13 presets that give you a moody or faded look. Each preset has a different focus. Each preset has been thoroughly tested to work well with many images. You will also find 4 grain presets and 5 vignette presets that can be used to enhance your photos.

Each preset is intended to be used as a starting point. It is important to first fine-tune the settings, including Exposure, Color-Temperature, and Blacks and Whites, under the 'Basic' panel.

This product is also included in the 'COMPLETE SHOP BUNDLE' with over 25 products and a total of 400+ Lightroom Presets for landscape, nature & travel
