Trapcode Fire V2.3 - AE Project VH-20732709: Trapcode Fire V2.3 introduces new visual enhancements and customization options to certain projects, including The (Human Torch Fire Ball and Forest Fires) projects. Trapcode Fire V2.3 is also fully compatible with (Trapcode Particular V3) for Adobe After Effects (CS6 or later). Also, the most up-to-date version of (Trapcode Particular 4.1.0) for (CC 2014, 2017, 2017, and 2018). The projects are well-organized, clearly labeled, and highly optimized using easy-to-use sliders. The 15 files include a Particle comp that defines the style and behavior that the model will exhibit. It also includes a powerful export component that seamlessly incorporates your fire into any live-action shot.

Current Requirements:

- (Trapcode Special V4.1.5) (Trapcode Particular V4.1.5) - Downloadable via the Maxon App. You can choose alternative Versions (Trapcode Suite 5.1.6).
- (Adobe After Effects CC 2018) You can request a direct download link from Creative Cloud support.
