Purpose of the Course Content

The course material is created and organized in videos to aid the student in understanding every concept in depth. The course content is designed to teach you the basics that will help you apply the knowledge you have learned in Canva. This structured content is essential since it allows you to improve your skills as we progress through the course.

Navigating the Canva Platform

This course will guide you in understanding what to do on the platform. We at LearnWithMary are committed to helping students navigate the various platforms we offer since they can apply these skills later to develop top-quality abilities.

Course Requirements

No prior experience is required for this course, and all you require is an internet connection. In this class, we'll guide you through downloading Canva and setting up the Canva Account from the beginning.

How do you maximize the course?

The best way to get the most out of this program is to watch the tutorials two times before you practice the material. Watch the tutorials until the end before you test the exercises. The examples we have used can be found via Canva. Canva platform means you'll get access to the same examples. (Optional:) You can use a notebook to note any information that will help you further.

- Learn the fundamental Canva functions.
- Find and navigate through the Canva Homepage as well as the Settings Menu.
- Examine the differences between Canva Pro and Canva Free tools.
- Sort your work into folders, and then you can quickly locate them.
- Find out more about the latest Canva Features (updated frequently).
- Learn more about BrandKits and how to incorporate the concept into your designs.
