### The Gnomon Workshop – The Art of Visual Storytelling:

The "Art of Visual Storytelling" workshop by The Gnomon Workshop, led by Ronan Le Fur (Dofresh), explores the core techniques used by professional artists to create compelling visuals.

This 3-hour session covers workflows in 3ds Max, After Effects, and Photoshop, though the principles are applicable to various 2D and 3D software.

Aimed at intermediate artists, the workshop focuses on pre-production visuals for film and video games but offers valuable insights for any creative project.

Participants will engage in sketching, kitbashing, compositing, and digital painting to enhance their storytelling skills through imagery.
