History Opener is a jaw-dropping After Effects template using a design. It comes with a variety of contemporary looking text cartoons and transitioning effects that come together to show and increase your media. This template includes 20 editable text layers and 19 networking placeholders. A highly effective introduction for your TV shows, documentaries, movies, videos, trailers, teasers, promotions, and upcoming event movies. Impress your audience with this up so far and animated AE template. No plugins needed.
