what is Sound Effects - Urban Ambience?

"Sound Effects - Urban Ambience" refers to a collection or category of audio recordings that capture the ambient sounds of an urban environment. These sound effects are used in various forms of media production, such as films, television shows, video games, and radio broadcasts, to create a realistic and immersive auditory experience of city life. Urban ambience sound effects can include a wide range of sounds that collectively make up the background noise and atmosphere of a city or town.
