Unreal Engine ArchViz HQ Decorative Panels Vol. 1 (Engine version 4.24-4.27, 5.0-5.3): Immerse your architectural spaces in unparalleled realism with our top-quality assets, meticulously crafted for effortless integration and stunning visual impact. Designed to complement scenes with RTX (Raytrace) technology, these models elevate your projects to new heights of authenticity and detail.

Featuring 22 meticulously modeled decorative panels alongside a curated selection of high-quality furnishings, including an armchair, cactus, floor lamp, side tables, and a plush carpet, this collection offers everything you need to bring your designs to life with unparalleled sophistication and charm.

While optimized for RTX environments, these assets are versatile enough to enhance any scene, though users may experience some overlap during baking due to the intricacy of the meshes. With 28 meshes, 50 material instances, and 45 master materials, this comprehensive collection provides endless possibilities for customization and creativity.

Each asset boasts multiple LODs to ensure optimal performance without sacrificing visual fidelity. At the same time, the wide range of texture sizes, from 1024 x 512 to 8000 x 4800, guarantees stunning detail and clarity in every render. Drag and drop these assets into your scene to transform your architectural spaces with unparalleled realism and refinement.
