The Retro Pro Actions set consists of 13 highly sophisticated, individually designed by the mouse to create retro effects that you can apply to your photos. Exclusive to Creative Market the effects instantly enhance your photography by adding a multitude of effects just at the touch of an icon.

### In the collection:

HDR Retro HDR Vintage Modern Retro Old Winter Retro - Kissed Sunlight Retro - Kissed Sunlight Strong Retro - Sunlight Retro - Sunlight Soft Retro - Heat Retro - Red Season Retro - Yellow Season Retro - Green Season Winter Retro

They can be combined to create your own creativity. Unique to Creative Market This set of Retro actions are ideal for graphic designers, photographers, or anyone who needs professional effects in one click. I've been working on effects similar to this for a long time and using these actions significantly accelerates the process.

The best part is that they do not harm your original layer (creating an additional folder that contains the effects described above) and are completely customizable to meet any modification needs.

Note: I've included the step-by-step instructions to install the steps for those who don't know what to do.

- Compatible with Adobe Illustrator, Adobe Photoshop
