Neo-Stock – Hollywood Processing [Photoshop Training Bundle]: You can take Your Studio Photography to the next level by using the Clinton Lofthouse's Hollywood Processing [Photoshop Training Bundle][Photoshop Training Bundle].

In this class, you'll master the techniques of creative Compositing which includes the Photoshop tools and methods that can transform your unfinished photos into cinematic, high-impact scenes.

There's never been a better time to unleash your imagination!

- Creative Compositing, also known as Creative Compositing. It is one of the professional techniques for cutting out (masking) several elements in order to make a new scene.
- Color Processing: Unifying or making dramatic use of non-destructive Colour Grading and Processing techniques.
- "Painting with Light" Enhancing the look of the painting by hand "light-spills" along with scenic and atmospheric effects.
- Depth of field: creating illusions of distance and depth by using deliberately blurred or distorted elements.
- Composition: Create a sense of harmony, unity, and balance of your scene through the placement and scale of the elements.

Layer Blend Modes, and Layer Blend modes, & Burn techniques and Third-Party Filters, plus more!
