Foodicious Pro – Lightroom Presets: Retouching food photographs is more demanding and time-consuming than other areas of photography. It takes a lot of effort to make stunning and tasty food photography. Foodicious is a set of pre-sets available that work with Adobe Lightroom that helps food photographers make their photos tasty and effective! It comes with a range of mouse-made and professionally created presets.

Foodicious Presets is a breeze to use. It doesn't require you to alter everything. Simply one click can bring your photos to life and appearance. You can also alter the individual settings of each pre-set and even customize the settings. So, your creative options are virtually endless. If you're looking for a bargain, Foodicious is an amazingly good price!

Editing images in Lightroom as well as Adobe Camera Raw has never been simpler.
