Renegade Audio Pressure Drop (WAV): Just as Zeus hurls bolts of lightning from a mountaintop, Pressure Drop unleashes massive sonic thunderstorms of powerful grooves and atmospheric landscapes. Immerse yourself in a realm of swirling echoes, reverbs, formidable beats, thick pulsating dubby basslines, ethereal synth pads,

skanks, and more, transforming and adding an extra dimension to your productions.

Pushing boundaries, Pressure Drop centers around the optimal tempo for various genres: 140 BPM. From halftime (70 BPM) to classic Jungle (160 BPM) and beyond, Pressure Drop's 140 BPM offers maximum flexibility for exploring a wide range of musical experiences: bass music, steppers, grime, dubstep, breakbeat, jungle, electro dub, and more.
