Nathan Chanksi - Amber Presets:

The Amber Presets, including version 2.0, offers a collection of color, black & white, and adjustment brush presets designed for Adobe Lightroom Classic, Adobe Camera Raw, and Lightroom Mobile (with some exceptions for mobile compatibility). Inspired by nostalgic film photography and cinema, these presets enhance skin tones and provide versatile adjustments that work well across various lighting conditions, whether cooled or warmed. The package includes 10 color presets, 11 tweak presets, 5 black & white presets, and 9 adjustment brush presets, all aimed at creating timeless, visually stunning imagery.
