We are pleased to present one of our top releases and the flagship product: Robotic Lifeforms. From small robots to gigantic automatons, which include transforms, and servos. Robotic Lifeforms was recorded and created over the span of a whole year by previous Electronic Arts and BioWare award-winning sound designers, as well as huge sci-fi enthusiasts. Robotic Lifeforms offers more than what you'd think of from a robot's sound effects library, weighing more than 2700 files, and made using the best audio equipment, microphones, and sources.
