Pro Display XDR Presentation (Videohive 28600439): After Effects template in a fresh minimal style for producing a website video demonstration, to showcase a website, blog, launch a new service, electronic platform, or internet store.

XDR monitor with its 6K caliber is designed for a professional perspective, for highly visual, vibrant contrasted net themes. Use its photorealistic mockups with smooth animation to demonstrate your true colors rendering, web design, and user interface.

The mockup kit includes horizontal and vertical landscapes, frontal and diagonal views, the monitor up and down to the rack, single and double XDR scenes. It includes 12 animated scenes including 6 text placeholders.

- 12 scenes
- text and Background color control
- Insert screens, video, or photo
- Modular structure
- No plugins required
- After Effects CC12 and above
- 4K 3840×2160
- Music and screens not included
- Soundtrack
