SharkCAD Pro v14.4.1 Build 1652 (Win):

SharkCA Pro is an advanced CAD design software designed for professionals across various industries such as engineering, architecture, product design, and manufacturing. It offers a comprehensive suite of 2D drafting and 3D solid and mesh modeling tools, photorealistic rendering, and compatibility with popular CAD and graphic formats. SharkCAD Pro is built to streamline the entire design process, from concept development to prototyping and manufacturing, providing high precision and flexibility. The software emphasizes ease of use, with intuitive tools such as the LogiCursor™ to enhance user productivity.

- **2D Drafting Tools:** Create detailed technical drawings, diagrams, and schematics with professional precision.
- **3D Solid & Mesh Modeling:** Versatile 3D modeling for a variety of design needs, from prototyping to architectural design.
- **Photorealistic Rendering:** High-quality rendering capabilities for visualization of finished designs.
- **Subdivision Technology:** Mesh-based modeling with advanced subdivision for conceptual design flexibility.
- **2D/3D Switching:** Seamless toggling between 2D and 3D views during the design process.
- **LogiCursor:** Intelligent drawing assistance tool that suggests your next step in the design.
- **File Compatibility:** Supports a wide range of formats including DWG, DXF, STL, SVG, 3MF, OBJ, PDF, SketchUp, Adobe Illustrator®, and more.
- **3D Printing Support:** STL and 3MF import/export capabilities for easy prototyping.
- **Custom Manufacturing Support:** Converts designs for CNC and other manufacturing processes.
- **Architectural & Mechanical Design:** Tools tailored for creating detailed architectural plans, mechanical drawings, and product designs.
- **Collaboration Tools:** Full compatibility with AutoCAD® and other popular CAD formats to facilitate collaboration.
- **Educational Support:** Intuitive learning tools to make it easier for users to master the software.
