Alex on Raw - Pro Color Grading Styles:

The Capture One Pro Color Grading Styles is a set of 50 unique styles designed for quick and versatile color grading in Capture One. With options for Portrait, Landscape, Travel/Street Photography, and Universal styles, users can explore various color schemes and tones that best suit their images. Each category features both color and black-and-white options, and all styles support layer adjustments, allowing users to fine-tune opacity for precise effects. Additionally, 50 style brushes enable targeted color grading application on specific areas of an image, enhancing creative flexibility. This set is ideal for photographers looking for efficient and professional color grading tools within Capture One.
