

Speed Ramp Pro (Videohive 54962820)

2025-02-10 16:40:17 [label](#) [我要反馈](#) [下载页面](#)

Videohive Speed Ramp Pro:

It allows users to focus on the creative part, eliminating the technophobe ‘drama’ of working with a dynamic speed ramp. It has a unique selection of features, such as the ability to change video speed in the speed curve and set up automated effects so that Flash, Aberrations, Zoom, and Motion Blur get triggered at a specific speed.

Activating these features automatically sets the device to the desired configuration without requiring additional adjustments. The tool has six unique presets to achieve the dynamic speed ramp if needed quickly. It is also capable of Boomerang and Reverse effects, Easy timeline preview, and custom frame interpolation to the joy of beginner and professional editors alike.

- **Pre-Configured Settings:** Six presets for simple and fast Speed Ramp creation.
- **Adjustable Speed Curves:** Capable of being altered for specific animation needs.
- **Automatic Effects:** Zoom, Shake, Rotation, Lens Distortion, Aberration, and Flash effects are activated while the video is playing.
- **Creative Effects:** Boomerang and Reverse cut with unique transitions.
- **Motion Blur & Frame Interpolation:** Effective and smooth transitions during speed switch.
- **Timeline Display:** Video usage and speed gradients are now visual for easier and faster editing.
- **Usability:** The software features an easy to comprehend and navigate interface with guides for beginners and advanced settings for experienced users.
