

Autumn slideshow (Videohive 33718571) - AE Project

2025-02-10 17:11:29 label 我要反馈 下载页面

- **Modular structure (9 modules in separate parts)**
- **You can easily extend the duration**
- **You can easily duplicate or create new scenes**
- Images and videos are accepted
- Color control
- Modern beautiful design
- It is very easy to use
- Instruction included
- Multi-purpose
- After Effects CC 2018 or higher
- No plugins required
- Full HD resolution, 25 frames per second
- Font included

What is an Autumn slideshow?

Creating an autumn-themed slideshow in Adobe After Effects (AE) is a creative project that allows you to showcase the beauty of the season in a dynamic way.

An "Autumn slideshow" typically refers to a video presentation or montage created to showcase the beauty and elements of the autumn season. These slideshows often feature photos or video clips that capture the colors, landscapes, and activities associated with fall, such as changing leaves, harvest festivals, pumpkin patches, and cozy autumn scenes.

To create an autumn slideshow, you can follow the general steps I mentioned earlier for an Adobe After Effects project. However, if you don't have AE or are looking for a simpler solution, you can use video editing software like Adobe Premiere Pro, Final Cut Pro, or even free options like iMovie or Windows Movie Maker.
