Get Started

To make the Simple Shockwave, click the Generate Button and rotate it, or place it where you’d like it to be by using the "Shockwave" Empty that all objects in the shockwave are parent.

To make the Advanced Shockwave, you will have to copy the object "s_emitter" and change some numbers in the particles system panel "Turbulence" and Life Time can make a difference

This is what it appears as when duplicated. Each "s.emitter" should be given different properties to produce an advanced shockwave
