The **G-PreSSETS: NP Mobile Preset Pack**, created in collaboration with Nicole Petersen, enhances social media photos by adjusting lighting to achieve the perfect aesthetic.

How to adjust the light of your images using presets in Lightroom?

You can use "G-PreSSETS: NP Mobile Preset Pack" to edit your pictures beautifully.

These versatile presets can warm up flat outdoor lighting or cool down the amber tones in cozy indoor settings, though they're ineffective in poorly lit basements. The pack includes 10 presets, a PDF guide, and a video with step-by-step installation instructions, requiring a computer for setup.
