Unreal engine - Ring World City Station v4.27:

Immerse yourself in a futuristic metropolis with the Ring World City Environment pack. Featuring 185 meticulously crafted static meshes, complete with LODs, lightmaps, and collisions, this pack provides all the assets you need to bring a sci-fi city to life.

- **Modular Building Components:** Construct unique buildings, walls, and roofs using modular components for unparalleled customization.
- **Vertex Painting:** The floor material includes vertex painting, allowing you to add realistic wetness effects where needed, enhancing the visual appeal of your cityscape.
- **Diverse Props:** From bustling streets to cozy interiors, this pack includes a wide range of props, including a bar with food and furnishings, spaceship components, and interior modules, ensuring every corner of your city is rich with detail.
- **Landscape Elements:** Bring your city to life with lush landscapes featuring grass and trees, creating a vibrant contrast against the futuristic backdrop.
- **Ring World:** Explore the awe-inspiring concept of a ring-shaped world, adding a unique and immersive element to your cityscape.
- **Blueprints with Splines:** Utilize blueprints with splines for seamless integration of dynamic elements such as spaceship and robot flight paths, as well as vista buildings, adding movement and depth to your environment.

Technical Details:

- **Asset Count:** 185 static meshes
- **Compatibility:** Assets are scaled according to the epic skeleton, ensuring compatibility with standard character models.
- **Distance Fields and Global Illumination:** Enable distance fields and global illumination for optimal visual fidelity and realism.

Additional Features:

- **Interior Modules:** Create immersive indoor spaces with modular interior components.
- **Spline Blueprints:** Use splines for dynamic elements like robots, pipes, or trains, enhancing the liveliness of your cityscape.
- **Showcase Level:** Dive into the possibilities of the Ring World City Environment with a showcase level included, providing inspiration and guidance for your projects.

Transform your projects with the futuristic allure of the Ring World City Environment, where imagination meets innovation in a sprawling sci-fi metropolis.
