Aescripts Super Resize Me! v1.1 (Win, Mac): Resize a Composition's dimensions and scale all child layers and pre-comps relative to it. This allows you to quickly scale projects for different output resolutions while maintaining the same aspect ratio.

How to resize the dimensions of a designed composition in Plugins?

You can use "Aescripts Super Resize Me".

Where can I download the product?

After subscription, You can download it for free from here.

Installation guide:

- The easiest way to install is by using the aescripts + aeplugins manager app
- Windows: Move Super Resize Me!to C:\Program Files\Adobe\Adobe After Effects 2023\Support Files\Scripts\ScriptUI Panels
- Mac: Move Super Resize Me! To Applications/Adobe After Effects/Scripts/ScriptUI Panels/

- The "Recursive" setting scales the starting comp and all related child pre-comps. To scale one comp at a time, uncheck the "Recursive" checkbox.
- Upscale or downscale a complex project
- Convert HD project to 4K—or vice-versa
- Resize individual comps while working
- Bulk versioning
- Easily scale all:
  - 2D Layers
  - 3D Layers
  - Camera Layers
  - Default 3D Camera
  - Parented Layers
  - Locked Layers
