**Peter McKinnon – Lightroom Presets :** You asked for this, so here it is! I've assembled 7 of all The LUTS that I work with when viewing my movie footage, my murderous roster, and YouTube Videos. What's a LUT? In Other Words, consider it just like a filter to your video footage. You use a LUT to a few of your clips as well as the information inside that LUT immediately color adjusts your footage to appear a specific way.
