Erika Brooke – Bones Presets:

Erika and Dylan have created a special edition Lightroom preset collection featuring rich, moody, and romantic tones.

This pack includes 4 color and 2 black & white presets, designed to achieve a mix of warm and cool tones, muted highlights, rich blacks, and a unique grain effect.

These presets, intended for use with Lightroom on professional RAW format files, have been tested by various photographers in different lighting conditions.

All sales are final, and Erika expresses her excitement in sharing this collection with users.
