Frames Slideshow (Videohive 6825972) - AE Project: Photo Frames lets you display your thoughts, photos, or ideas with a stylish and lively HD-quality presentation. This sleek project, featuring pre-designed designs, is ready to add your photos and customize it to your liking. Mix your images and videos with solid text, and select the right music to help enhance your message. The pre-made transitions will allow your presentation to flow effortlessly as the music and your words provide dimension and direction.

The preview showcases photographs in black and white with a background of nostalgic piano music to give an old-fashioned and nostalgic look; however, with easy customization of images and text, and music; you're free to design something individual and unique. Five color-based presets are part of this project, so it is possible to give your pictures more personality or concentrate on a specific subject: classic, vibrant black and white, etc.

The modular design makes it easy for you to create your presentation, edit and customize every component separately,, and then bring it all together to create the most impact. Drag your images and your logo along with your music into a template layout, edit the text (adding as many placeholders as you want) and then create your final product within a short time. No plugins are required! The comprehensive video tutorial will teach you everything you need to know to make the most of the Photo Frames idea.
