**Blender Market – Easylight v1.5:** It is easy to add IES-ready lights. Modify, create, and manage groups of lights in a simple manner.

EasyLight provides a comprehensive light management system to streamline handling multiple lights simultaneously. Whether you're adjusting power, toggling groups on/off, modifying colors, or managing light temperature, EasyLight simplifies the entire workflow. Even lights with Emission Materials on mesh objects can be seamlessly integrated into these light groups.

### Limitations:

- Exclusive compatibility with Windows OS.
- IES textures are not supported in the Eevee rendering engine.

Explore EasyLight's user-friendly interface and powerful tools for efficient light management in your Blender projects. For more information and updates, refer to the provided documentation.
