5 PRESETS YOU'LL ACTUALLY USE

Often I just don't have the time or patience to dial in text animation information for my ventures in After Effects, whether you're anything like me.

Lucky for us... My good friend and genius animator, MENDO, has been working on a minimal, tasteful, and easy-to-use series of text animation presets designed to help take the projects from 8 to 10 in Premiere Pro OR Final Cut Pro X.

And we have teamed up to introduce them to you now!

Because no one has time to sift through 1000 presets that they will never eventually put to use, we wanted to keep things easy with 5 title animations that you will Just use for the rest of your life - saving you time and money!

In a variety of projects, I've already put them to use and they've saved me hours of work and added the extra touch that I've been waiting for for years.

CUSTOMIZE FONTS, COLORS, AND MORE!

It couldn't be easier to use these presets. Only drag and drop into your timeline and edit fonts, colors, kernels, etc. in full. You can also dial to be as fast or long as you want and more awesome customizations) in the pacing of the animations!

Click the walkthrough with Mendo below to see exactly how easy this product is to use!

What is TXT ANIMATOR?

"TXT ANIMATOR" in this context refers to a set of text animation presets created by Ezra Cohen in collaboration with animator Mendo. These presets are designed for use in video editing software such as Adobe Premiere Pro CC and Final Cut Pro X (FCPX).

These text animation presets are likely designed to make it easier for video editors and content creators to add dynamic and
