Cinetoools Metallium: Ideal for all kinds of cinematic productions, from adventures to fantasy and sci-fi to action, terror to thriller, war to mystery, whatever you're doing, is everything you need to give your productions the proper sensation of motion! This suits all projects, such as Games and Advertising, requiring high-quality metallic sound.

Here is "Metallium," the second edition from our Designer Tools series, featuring various raw sources that recorded various sizes and types of materials, including bowed aqua-phones, metallic screams, frictions, large scraps of metal, and all other metal components!!

"Metallium" allows you to explore your imagination with the sounds it contains; it includes all the components you require to create your sound effects from scratch. The collection includes various recordings ranging from bowed cymbals, aqua-phones, and metal pipe scrapes that turn into swords to rattle pipes, huge containers to massive doors made of metal metallic drones to metal boxes chain rubs to tiny metals, junkyard metal parts to iron plates sliding doors to substantial garage doors made of metal, to color-coated cans, chairs, and other metallic tools. So if you're working on a project that requires something similar to this, This collection will be your most reliable companion!!

Please note that all samples included in this library were chosen by Cinetoools from their releases Disturbia, Climax, Hell Drums, EON, Maximus, Galactica, Mist, Unsane, and Terminus.
