Unreal Engine - Play Services Goodies:

The Google Play Games Services plugin provides seamless integration with Google Play for various functionalities, enhancing your Android gaming experience. This plugin allows you to effortlessly incorporate Google Play Login, Achievements, and Leaderboards into your game. The login feature not only facilitates access to Google Play services but also provides the access token, enabling authentication within Firebase Goodies.

Please note that even if the page displays an 'Unsupported platform' warning, proceed with your purchase as the asset is designed specifically for the Android runtime platform. You can comfortably develop on Windows and MacOS without any concerns.

- **Google Play Games Login:** Easily implement player authentication with Google Play, and obtain the access token for Firebase integration.
- **Achievements:** Showcase and reward players for their in-game accomplishments, enhancing engagement and satisfaction.
- **Leaderboards:** Foster competition by implementing leaderboards, allowing players to compare their performance and achievements.
- **Player Stats:** Gain insights into player behavior and performance through comprehensive statistical tracking.
- **Events:** Keep players engaged with in-game events, fostering a dynamic and evolving gaming experience.
- **Friends:** Facilitate social interactions by incorporating features that connect players with their friends within the gaming environment.
- **Cloud Save:** Ensure seamless gameplay across devices with cloud save functionality, allowing players to pick up where they left off.
- **Gameplay Video Recording:** Capture and share memorable gaming moments by enabling video recording of gameplay.

Enhance your game's appeal and functionality with the Google Play Games Services plugin, designed to elevate the gaming experience on the Android platform.
