下载页面

These are fresh film-inspired looks and some re-branded and improved versions of my most popular Vintage Presets! If you're in search of digitally-looking, grainy Presets, this is the one for you.

Be sure to have the most current version of Adobe Lightroom CC installed because these files (.XMP) will not work with older versions in which .lrtemplate files were needed.

#### Important

I omitted the settings for temperature and exposure, so you must tweak the settings to your preference to achieve the most optimal results.

In many cases, these two settings will alter the appearance and mood of your photographs.

#### WHAT You will get

1. Lightroom Presets (.XMP files)
- CMG AGFA
- CMG FJI
- CMG GOLD
- CMG KODAK
- CMG KODAK II
- CMG ROAMER
- CMG TREES
- CMG SEPIA
- CMG VINTAGE I
- CMG VINTAGE II
- CMG VINTAGE III
