Living in a charming New England town, one of the most beautiful seasons to go to the beaches is in winter. The soft snowfall and the rich ocean blues create an intense, dark and stunning scenery. I like creating art that captures the landscape using my delicate, hand-crafted watercolor brushes that I developed especially for Procreate. Now, you can make the same gorgeous landscape.

You receive will be:

- 22 Watercolor Brushes
- BONUS Canvas Texture

How to import Procreate brushes PAPER TEXTURES, PAPER TEXTURES, and COL PALETTES. The textures for paper and the color palettes function similarly.

Only for Procreate. It requires the Procreate Version 4.1 or greater. Brushes don't work with other programs or applications.
