Gfx plugin details of Blender Market – Quick Particles FX v1.2

The product is in **category from Blender Market**, for more information about this post you can click on the home page link in the sidebar.

Get Started

To make the first particles, choose an object, such as a cube, and click to make particles. When you're done, click play. Reduce size by using the particle size, then increase the number of particles using count, and alter the color using the color blue that is displayed on the panel.

Set the source of face to Verts, and set the velocity property to 0.
And that's it! You have an attractive particle flow

for additional juice to it Add a Force pick between Twist, Turbulence, or Push
Select the Twist you like and will be able to increase it using S then you'll notice the particles rotate, creating an incredible effect.

- Cool particle objects such as Mirror, Glowing, Mirror, etc.
- Force Fields
- Most Blender System Particle Settings
- Fantastic Functions
- Simple Creation of Particles
- It is easily tweakable
- Easy to Animate

What is Quick Particles Addon v1.2 Blender Market
