20 Tips for Using the New 3D Illustrator Tools – A Graphic Design for Lunch™ Class

2025-02-10 16:38:47　　label 我要反馈　　下载页面

Graphic Design for Lunch(TM) is a set of video tutorials that are available in bite-sized pieces, for lunchtime, for example. In this course, you'll learn 20 ways to use the latest 3D tools available in Adobe Illustrator. The tools were introduced in April 2022, so they are brand new and exciting and can help you design 3D designs using Adobe Illustrator.

These 3D design tips explain the fundamentals of making 3D objects and how to use patterns to create their capabilities. These tools are totally different from the traditional 3D instruments (which are now known as Classic) which is why this course concentrates on the latest tools. After you've completed this course you will gain new abilities you can employ in your daily Illustrator workflow.
