This Fujifilm LUT in my Big Sur Series is the ideal Accent to your stunning Fuji footage. It's designed to work together with Fuji Cameras when filming at a normal Film Simulation (maybe not F-Log). Therefore, if You are shooting an old XT-2 or a brand-new XT-4, this LUT should do the job beautifully.

Contains:

- One High-quality LUT made especially for Fujifilm cameras
- Shooting Guide for getting the most from the Fuji LUT
