This template is high-quality Adobe After Effects and can be used for business presentations, intros, or trailers. You can personalize it with Plexus and Videocopilot plugins. You can choose from two versions: one with 14k textures, the other with 6k textures for faster render. You can also change the colors of the city illumination, rotate and colorize the dots and plexus lines. With Adobe After Effects, you can create a professional-looking and customizable planet.
