Unreal engine - WW2 Tank - Panzer IV - Advanced Tank Blueprint v5.3:

Embark on an epic journey with the fully operational Panzer IV battle tank controller!

Experience the thrill of driving a meticulously crafted tank, complete with rigged tracks, wheels, hydraulics, and a customizable blueprint tailored to your preference for either arcade-style or realistic driving.

Immerse yourself in the action with dynamic sounds, visual effects, and independent control over the cannon and machine-gun targeting.

- Weapon Component: Easily customize effects and sounds for immersive combat experiences.
- Projectile Component: Customize effects and sounds effortlessly, including a bonus 203mm shell model.
- Sound Effects: Enjoy a wide array of sounds, from idle and engine noises to cannon blasts and machine gun fire.
- High Texel Density: Maximize visual fidelity with four separate material slots and two wheel slots.
- Particle Effects: Experience dynamic particle effects like impacts, firing, dust, exhaust, and weapon trails.
- Destruction: Witness intense tank battles with destructible tanks and unique static mesh variations for each tank, complete with dynamic texture variations and impact decals.
- Advanced Tank Controller: Enjoy realistic tank movement with an advanced chaos-based controller, turret and weapon control with collision avoidance, and rigged suspension and hydraulics.
- Emissive Light Controls: Customize emissive lighting for added visual flair.
- UV Animated Tracks: Watch as tracks animate realistically, adding to the immersive experience.
- Track Decals: Leave your mark on the battlefield with track decals.
- Animated Cannon Recoil: Experience the authentic feel of firing with animated cannon recoil.

Get ready for adrenaline-pumping action as you take command of the Panzer IV battle tank and dominate the battlefield like never before!
