AcidBite – Elegant Luts (2022): In this package, you'll find fashionable pastels and vivid colors that clean your teeth.

CREAMY BUSINESS

These "soft" LUTs from this package give you an attractive highlight roll-off, soft skin tones, and a through-and-through elegant appearance. This is well for fashion and commercials, well-behaved brands' pop music videos, and for your sister's wedding video.

SOFT & HARD

Of course, we know you love our stick-this-video-through-your-eyes-into-your-brain style of ACIDBITE. We've created two variations of each style. Soft is a gorgeous wedding cake, and hard is a pot that boils with chili.

IT'S THAT SIMPLE

Every serious editing software can work using cube LUTs, which can be imported into Lightroom and Photoshop! Apply the style you'd like to your footage, and then you're done.

ALL THE LOGS!

We are geeks. Color science is enjoyable, and we take on this problem so you don't have to. This pack contains LUTs in a color that has been converted for every type of camera and style. If you shoot with the Arri Alexa or an old Sony A7s, We've got you covered!
